Subject: Modesto Groundwater Superfund Site

Hi Melissa –

Thanks for speaking with me earlier. As I mentioned, USEPA is getting close to finalizing our Feasibility Study and at that point, we will be continuing to the Proposed Plan and Record of Decision part of the Superfund process. The Proposed plan will propose our path forward and our selection of our remedy for the site. The Proposed Plan will go out for public comment for 30 or 60 days and hence, wanted to update local government prior to doing so. I will keep you informed of the process and please pass along this message to anyone else at Modesto that you think would be interested.

Thanks,

USEPA | Superfund
